

## HOW DO WE WORK IT?

Designs customized in advance, prepared at the factory

- ✓ Tailored Home package - drop-shipped for installations.
- ✓ Special passive design features - reduce demand loads.

Project coordinators & installers give WHAT YOU NEED --

- ✓ Experienced, insured, turn-key support for your build-out.
- ✓ YOU build the homes, SST takes care of the technology.
- ✓ No waste of time, troubles & \$\$ with shaky technology & skills.
- ✓ We work directly with YOU - at YOUR site - with YOUR customers.

## TURN-KEY DESIGN, INSTALL, OPERATE & MAINTAIN PACKAGES

Let your customers tell you what options they want

- ✓ SST will give them an Integrated Sustainable Technologies Package.

# NATIONWIDE *Custom Homes*

## A NEW LINE OF SUSTAINABLE HOMES

The Future Just Arrived with Nationwide Custom Homes & Shenandoah Sustainable Technologies, LLC.

Tailored design for:

- Geothermal
- Solar Power
- Solar Hot Water
- Wind Turbines
- Fuel Cells
- Rainwater Catchment Potable
- On-Site Wastewater Treatment

## GIVE YOUR CUSTOMERS WHAT NO OTHER BUILDER CAN

Sustainable Technology Homes at AFFORDABLE prices:

- Same or LOWER monthly costs compared to conventional homes.

How:

1. Technology costs wrapped into long-term mortgage.
  - No big up-front “payback” outlays.
2. 30% federal tax credits.
  - PLUS state subsidies, energy & carbon credits.
3. REDUCED monthly utility bills.
  - Pay yourself!
4. Volume direct dealer pricing breaks passed on.

## BESIDES AFFORDABILITY – YOU GIVE YOUR CUSTOMERS:

A healthier life for our families & kids

- ✓ Help STOP environmental pollution & climate disruption.
- ✓ Show REAL stewardship for the planet .
- ✓ Watch the meters save kilowatts , carbon, and gallons.
- ✓ Protection from contaminated municipal & well water supplies.
- ✓ Chemicals, hormones & unknown pharmaceuticals.

Wealth creation for families & business

- ✓ Turn raw land into developed lots - appraisal multipliers.
- ✓ Up to complete self-sufficient buildings.
- ✓ Stand-alone - no utilities, no wells, no septic field.
- ✓ Remote & scenic parcels - independence.

Utilities escape from black outs, brown outs & rate hikes

- ✓ Beat fossil fuel fapitivity - oil, gas, electric bills.
- ✓ Instead use Mother Earth.
  - Geothermal warmth – sun power & hot water.
  - Soft rainwater – natural re-circulating wastewater treatment.
